

Project 3

Spiral Card

MEASUREMENTS

- Base:** 14.8 cm x 21 cm
- Level 1:** 14.3 cm x 10 cm
- Centre Panel:** 6.7 cm x 6.7 cm (two of these)
- DSP:** 3.2 cm x 3.2 cm (4 patterned and 4 contrasting)

INSTRUCTIONS

- Place the first centre panel as a standard square and the second placed at a 90 degree angle.
- The most important part of this card is to only place glue on one edge of the square.
- Place the glued edges starting from the top of the left side panel.
- Continue on with all panels making sure each piece is glued at the point side. The last piece is tucked under the first.
- Layer 1 needs to be stamped before placing in the embossing folder and adhered to front of card. Place the centre panel as desired.
- Place Gm in the middle of the centre panel.
