Hello!

Welcome to Stampin' Up!—we're glad you're here! We believe that sharing experiences, building relationships, and making a difference in the lives of others is what truly matters. If this speaks to your heart, let's work together!

Whatever your celebration, recognition, and connection needs are this season, our paper crafting products are designed with purpose and coordination to help you have rewarding and memorable creative experiences. Now's the perfect time to make something that means something for you and those you care about!

Heartfelt Messages Matter!

Over the years, my husband, Sean, has invited the guys in our neighbourhood over to make Valentine's Day cards for their sweethearts. We design a card that's simple to make (seriously so simple—we only use one ink pad), set out all the supplies, and provide some snacks, of course!

When they first arrive, I can tell they're a bit unsure about where to start. But as soon as they ink their first stamp and press it onto grid paper for some practice, I'm surprised by how quickly the creativity takes over! They joke with each other and give tips as they learn how to use adhesive or a punch. I love how creative activities like this can bring people together!

Once their cards are complete, we encourage them to do the most important thing when it comes to card making: writing a heartfelt note

on the inside. Some take time to write their message right then and there, while others want to think about it first. Either way, our hope is that they understand that the written words on the inside of the card are the most meaningful part!

After Valentine's Day we sometimes hear how the cards were received, and that makes us smile . . . knowing a relationship was strengthened because of something as simple as a card. It doesn't matter what type of relationship you want to support, there are ideas and products throughout this catalogue to help. And if you're up for it, host a Valentine's craft night of your own! Or add your own twist and try a birthday card party, a Mother's Day craft night, or another creatively themed gathering you and your friends will enjoy together.

Quick & Easy Options

We've simplified the crafting process for when you want something quick & easy. Need a sweet birthday tag before heading out the door? Done. A special card for a special someone? You bet. A celebration card that looks as celebratory as you feel? Absolutely. Whether you craft all the time or just want to try something new, Quick & Easy options gives you all the fun of personalised crafting in less time and space!

Don't be fooled by the samples on this page—they are visually stunning but so simple to make. We have printed cards with matching envelopes, precut designed images and sentiments, and Ephemera Packs—everything you need for a fun and simple crafting experience.

If you need help designing a card or tag, look at the templates on p. 12. They're a great resource for layout design. When picking a style direction, think about who the craft is for. What's their favourite colour? What do they enjoy? Use that person as your source of inspiration when choosing Mix & Match pieces.

When you're ready to start, take a seat (on a chair, the floor, your bed—you can do this almost anywhere!) and make meaningful crafts in a matter of minutes.

How to Make a Butterfly Card

Cut out your card front with the large butterfly die. Then flip the die around and line its top edge to the edge of the cut butterfly. After that, die cut the back of the card. Once done, fold the cardstock over.

Why You'll Love Stamps

We have a few different types of stamps: cling, photopolymer, Reversibles, Distinktive™, and Two-Step. Here's more about what they are, what they do, and why you'll love 'em!

Cling

The images in a cling stamp are deeply etched into high-quality rubber for crisp, detailed images. The rubber surface is the perfect canvas to play with inking techniques.

Photopolymer

Photopolymer is a clear material that allows you to see exactly where you're setting your stamp for precise stamp placement and alignment.

Reversibles

These stamps are made from a specialised photopolymer that can be stamped on both sides. One side of the stamp is the general shape, and the other side has all the details.

Distinktive™

These stamps have a special texture that holds varying amounts of ink to create photo-realistic results. Distinktive stamps can look like you watercoloured an image by hand!

Two-Step

Layer two or more images to create one final image with Two-Step stamps. Whether you're layering floral details or building an ocean scene, these stamps are designed for creative customisation!

Reversibles stamps give you options for stamping detailed images and shadows as well as layering colours and textures for added depth.

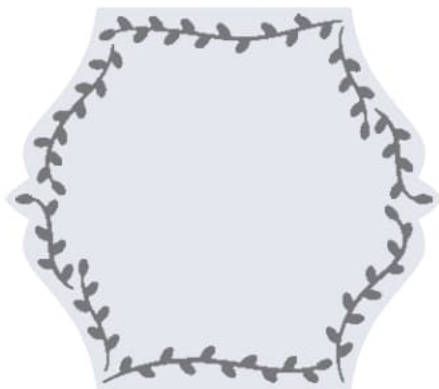

Stamps are reversible. Ink and stamp either side.
